

# *Post Deliverance*

## Lie Detection is KEY!

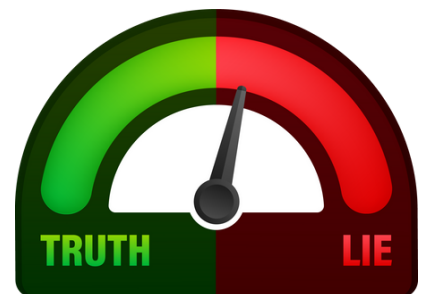

The enemy wastes no time to gain back territory that was lost and he does not get creative. He uses what has always worked, so we hear the same lies over and over again.

A stronghold is created when he speaks a lie and it is believed. Some lies may even sound silly or harmless, but when their “breathing down your neck,” a lie can be confusing and even compelling. It’s the truth that sets the captive free... so imagine what a lie does!

Do NOT side with the lies. Beware of some of the assaults that may follow your healing and freedom and KEEP the DOORS SHUT!

### LIES YOU MAY HEAR

- You weren’t healed.
- God will heal everyone but you.
- That wasn’t real.
- It’s back. (If it were back...it wouldn't say it.)
- You won't last a week. You can't do this.
- You won’t last a month.
- No one notices you're changed. You're the same.
- It was easier before freedom. (OR) It was better.
- That was crazy. You didn't get free. You are not healed. It's not real.
- This is not who you are. Stop pretending.
- You’re fake.
- Insert lie: \_\_\_\_\_

Stop the lie and say out your mouth, "I refuse this lie. I am free and am loved."
